Exploring the landscapes & landforms around us and in this world; the processes that have formed them & the stories people use to describe them.

Discovering the Boandik perspectives on the seasons & how they have been an important part of life for thousands of years; the changes in seasons, the importance of conservation.

This beautiful book has been illustrated with images of felt paintings, from the Year 8 Students, who have used wet & needle felting techniques.

A collaboration between Sarah McCarthy and the Children of Berrin at Grant High School with Uncle Ken Jones & Aunty Penny Bonney.

With poetry translated into Bunganditj; the language of Boandik people, by Brooke Joy.
