

**Excessive Barking · Escaping the yard
Destroying furniture · Aggression
Thunderstorm/Fireworks phobias
.....sound familiar?**

If your dog displays any of these behaviours, which we know can be disruptive to daily life then this is the seminar for you and your family.

These are some of the common problem behaviours that dogs display. At this seminar we will explain why dogs do what they do and we will provide useful hints and tips on how you can help your pet so you can all live a happier and healthier life.

The seminar will cover dog behaviour, dog body language, common dog problems and effective training methods to assist and conquer these problematic behaviours.

We owe it to our pets to educate ourselves to ensure they get the help they need.

**DOG BEHAVIOUR & TRAINING
A PUBLIC SEMINAR**
