Naplan BYOD pre-test instructions for students

Article on the Portal@TWC site:

www.tenison.catholic.edu.au/portaltwc/categories/general-tips/naplan-locked-down-browser-installation

Before attempting to begin the test, students must:

1. Connect to the TWC WIFI network

2. Confirm can access a public website, such as google.com - *before* starting the Locked Down Browser (LDB)
   If cannot access Google, disconnect/reconnect to WIFI and retry

3. Check volume/headphones working ok, if sound needed for the specific test

4. Start locked down browser

Problems during test:

- Pause the test for the student
- Exit the test on their device
- Confirm still connected to WIFI and can access google.com
- Restart the test/Locked Down Browser

- Switch to school provided device and continue
