Mother's Day Breakfast

On Friday morning, Mothers, Grandmothers and friends came together at the College for a special Mother's Day Breakfast. Families gathered in the Barrie Holmes Stadium at 7:45am eager to share breakfast with their loved ones, acknowledging and looking forward to celebrating Mother's Day on Sunday. A great way to show appreciation to all the special women in our lives.

We pray for our mothers and those who are like mothers to us – our grandmothers, our aunties, our sisters, our teachers and our friends. We remember our mothers who are with us today, those who cannot be here or are not in our lives, and those who have died and are with God. Through the love, care and protection they show for us, mothers help us to understand more of what God is like.

Mothers often show us the way when we feel like we are in the darkness.

Mothers are God's special people. They bring us strength and comfort.

Mothers can cheer us up when we are feeling down.

Mothers help to nourish us, care for us and keep us healthy.

Mothers want us to learn and grow by helping us with our work and reading stories to us.

Mothers have big hearts to hold all the love they have for us even when we make things tough for them.

Lord our God, who listens to the humblest of voices, hear the prayers we bring to you today.

God of love, bless our mothers with peace and happiness

*We pray,
Hold our mothers close to you*

God of love, bless our mothers with laughter and joy

*We pray,
Hold our mothers close to you*

God of love, bless our mothers with good health and love

*We pray,
Hold our mothers close to you*

God of love, keep our mothers free of heartache, hurt and sorrow

*We pray,
Hold our mothers close to you*

God of love, watch over our mothers who are not with us

*We pray,
Hold our mothers close to you*

Loving God, with hope and faith we ask you to accept the prayers we make to you.

Amen.

From The Principal

Mother's Day Celebrations and Mary in the Month of May

Thank you to the Mothers, Carers, Grandmas, Godmothers, aunts, big sisters and all those who provide motherly care to our young and were able to attend the Mother's Day Breakfast and liturgy in the Barrie Holmes Stadium last Friday. Thanks to our Catholic Identity and Mission Team, supportive staff, our senior student leaders and volunteer student readers for their leadership of this event, and once again, the Sugarloaf Café for ensuring that the event was supremely well catered.

As we celebrate motherly care of those who are with us and those who are now enjoying their heavenly reward, we also acknowledge that during May we as a Catholic Church offer our devotion to Mary; our model of devoted motherhood, grace, unconditional love and maternal integrity.

National Families Week - Stronger Families, Stronger Communities

The United Nations General Assembly, in its resolution 47/237 of 20 September 1993, proclaimed that 15 May of every year shall be observed as the International Day of Families. The United Nations states that "this annual observance reflects the importance which the international community attaches to families as basic units of society as well as its concern regarding their situation around the world. The International Day of Families provides an opportunity to promote awareness of issues relating to families as well as to promote appropriate action. The Day can become a powerful mobilising factor on behalf of families in all countries, which avail themselves of this opportunity and demonstrate support of family issues appropriate to each society."

National Families Week coincides with the United Nations International Day of Families on 15 May. All Australians, including community organisations, schools, councils, companies and individuals are invited to participate in National Families Week each year.

Following up on the theme of the 59th session of the Commission for Social Development: "Socially just transition towards sustainable development: the role of digital technologies on social development and wellbeing of all" the 2021 observance of the International Day of Families focuses on the impacts of new technologies on the wellbeing of families.

Megatrends, including new technologies, demographic shifts, rapid urbanisation, and migration trends, as well as climate change, have been dramatically shaping our world. The prolonged COVID-19 pandemic demonstrates the importance of digital technologies for work, education and communication. The pandemic has accelerated technological changes that had already been under way both in society and at work, including the expanded use of digital platforms and related technological innovations like cloud computing and the use of big data and algorithms.

In preparation for the Thirtieth Anniversary of the International Year of the Family, 2024 (IYF+30) the United Nations aims to raise awareness of megatrends noted above and responsive family-oriented policies to tackle their effects.

In recognition of National Families Week, 15-21 May, we are reminded to reflect on the role families play in our community and the importance of celebrating the presence and meaning of family, as the protectors, first educators and nurturers of children and young people. We know that living in loving and stable families is an important safety factor for children. To support children and keep them safe we understand the importance of supporting their families also, especially those who may be experiencing stress or difficult times. The encouragement of family life is a key focus in our Archdiocese and within our school and parish team. National Families Week is an important opportunity for us to welcome and embrace the richness and diversity families bring to our parish communities.

The Archdiocesan Child Protection Unit has a responsibility to assist with supporting the care and wellbeing of children and families in our community and can be contacted on 8210 8159.

2021 NAPLAN Testing

Students in Years 3, 5, 7 and 9 will be undertaking the four NAPLAN tests of Writing, Reading, Language Conventions and Numeracy in Weeks 3 and 4 this Term, commencing yesterday Tuesday 11 May.

Families of students in Years 3 and 5 have had details of testing times sent home via a class newsletter. Years 7 and 9 families will have had a broadcast sent with times of the four tests.

Demonstration tests are available at the following site:

<https://www.nap.edu.au/online-assessment/public-demonstration-site>

if you are interested in familiarising yourselves with the type of questions asked.

Students have already undertaken at least one practice test here at the College. Students with their own devices should still have a Lock Down Browser installed to use for the testing. If students have new devices they may need to re-install this.

It is also really helpful if students in Years 7 and 9 bring their own corded headphones, as all tests have an aural element. We do have some spare headphones if this is not possible. Please feel welcome to contact your child's Home Group teacher or Chris Lloyd with any questions or concerns you may have.

Carpark Care

I remind families of the care required in the carpark area. The speed limit of 15km/hour is designed to assist with maintaining the safety of all community members. Likewise, the smooth running of the 'kiss and drop' area depends on the courtesy of all users to keep the traffic moving. Should children not be at the 'kiss and drop' area ready for pick up, I ask parents to complete another cycle of the area to ensure others can collect their waiting children.

HHDL Four Point Plan

Our current national context in recent times reminds us of the 'precarious confidence' that is present. I firmly believe that our complacency will be our enemy in the next eight months, and as such I reiterate that we will be continuing deliberately and carefully with our HHDL Strategy in Term 2.

I thank you in anticipation for your attention to the HHDL Four Point Plan; good health, good hygiene and hand washing, good distancing and care for others and good learning regardless of student location.

During Term 2, the health and wellbeing of students, families and staff remains our priority. We will continue to ensure that our school is a safe environment, maintaining the additional cleaning regime which was commenced in 2020.

Food Allergies – awareness, avoidance and action

Living with the risk of a severe allergic reaction, or anaphylaxis, takes planning, diligence and clear communication. At Tenison Woods College we believe that our community has a significant role in supporting those who live with the risk, so that through awareness, education and training they and their families can lead normal, healthy lives.

The website <http://www.allergyfacts.org.au> offers support for individuals, parents and carers of people living with this risk, supporting the critical more personalised treatment and care. We encourage anyone who suspects they may have an allergy or those who have already been diagnosed to consult their allergist, immunologist, paediatrician or GP for personalised treatment and care. This includes regular follow-ups so that they can access up to date information on managing their risk of anaphylaxis, and communicating that information to our staff so that our community can support them in the best possible way.

Staff Professional Development Days – 10 and 11 June

Staff are looking forward to the staff professional development days on Thursday 10 June and Friday 11 June, when they will devote time to literacy and numeracy experiences in the Junior School, Integrated curriculum in the Middle School, Student Agency in the Senior School, as well as evolving further our wellbeing approach at the school. Education Support Officers will also have the opportunity to complete the Youth Mental Health First Aid Course.

I trust students and parents will experience the benefits of the days through our service to students and families throughout the College. I remind families that these days are student-free days.

Need a tutor? Studiosity is our free online tutoring service

I remind families that students of Tenison Woods College in Years 7-12 have access to a free online tutoring service. Students are able to connect to expert tutors for live, one-to-one conversations about homework, assignments and exam preparation from 3:00pm – 10:00pm Monday to Friday. Give it a try – I know you will appreciate the service offered by Studiosity!

God Bless,

David Mezinac | Principal

CIM Team News

200 Years of Catholic Education in Australia

This year, we celebrate 200 years of Catholic Education in Australia. From its humble beginnings in Parramatta in October 1820, with 31 students, there are now over 768,000 students enrolled in Catholic schools across the country.

As a College community, a Mass will be offered to acknowledge this significant milestone on Friday 28 May at 8:00am in the College chapel. Students, staff and families are welcome to attend. All visitors to the College must sign in upon arrival at the chapel.

May is the month of Mary

During the month of May, the Church honours, with special love, Mary the Mother of God. The Hail Mary is an important prayer of our Catholic Tradition and one that we encourage classes and families to pray regularly.

Hail Mary, full of grace,
The Lord is with you;
Blessed are you among women,
Blessed is the fruit of your womb, Jesus.
Holy Mary, mother of God,
Pray for us sinners
Now and at the hour of our death.
Amen.

Sacramental Preparation Program

A reminder that families involved in the program must attend Family Session C tomorrow, Thursday 13 May, at either 4:30pm-5:45pm or 6:45pm-8:00pm at St Paul's Hall.

Youth Mass

Youth Mass is held on the 3rd weekend of the month at the 5:00pm Saturday Mass at St Paul's Church, Penola Road. The next Youth Mass will be held on Saturday 15 May. The music and readings at this mass are led by the young people from the College and the parish. Please contact Chloe Shanahan or Cisca Teodoro if you would like to be involved in this. The monthly Youth Mass is followed by a Youth Group dinner and discussion group. Young people in Year 8 and above are encouraged to attend.

Family Mass

Family Masses are held on the 4th Sunday of the month at the 11:00am Mass at St Paul's Church, Penola Road. The next Family Mass will be held on Sunday 23 May. Please contact Chloe Shanahan via email at shanahc@tenison.catholic.edu.au or Cisca Teodoro via email at mgsacraments@bigpond.com if you would like to be involved in this.

Term 2 Masses at the College Chapel

A Mass is held each Thursday of the term and is led by a different class or year level each week. Mass is held at 9:15am in the College Chapel. Until further notice, due to current restrictions, only staff members and students of the College are permitted to attend.

The roster for Term 2 Masses:

Week 3	Thursday 13 May – Year 6
Week 4	Thursday 20 May – Year 11
Week 5	Thursday 27 May – Year 9 Friday 28 May – Year 7
Week 6	Thursday 3 June – Year 12
Week 7	No Mass – Student Free Day
Week 8	Thursday 17 June – No Mass Friday 18 June – Whole School Mass
Week 9	Thursday 24 June – Year 4/5
Week 10	Thursday 1 July – Year 8

Chloe Shanahan | Religious Education Coordinator

#holyweek

Leader's Latest

As we continue towards the middle of Term 2, one of the busiest times at Tension Woods College, we all have a focus on learning. Within the past three weeks many things have been happening at the College. Our Year 3, 5, 7 and 9 students have been preparing for NAPLAN where they are being assessed on their literacy and numeracy skills; an online test which started this week and will continue for 2 weeks.

As for the Year 12s, they will be completing assignments and sitting tests to prepare for their exams, the final stage of their schooling.

Within this, the senior school are getting the best of help with the assistance of the After-School Study Centre. Please see the poster below to view what is offered throughout the week. The College also provides a program called Studiosity, a 24/7 on-demand study help, with Student Mentors that provide feedback on literacy skills and core subject support. Giving students the confidence to persevere, to normalise academic enquiry, to independently produce more thoughtful work, and to arrive in class better prepared. Studiosity can be accessed through SEQTA.

The College has also recently created fitness sessions that are part of the study centre concept. These sessions take place every Wednesday morning from 7:30am to 8:15am, known as 'The Club'. The Club provides and focuses on strength and conditioning, nutrition tips and support in a great positive environment, with each session followed by a shared breakfast.

If students need a shared space with their peers or individually, the College library is a great space for students to read, study or complete assignments. The library offers newspapers, magazines, e-books, laptops and many more resources that aid in learning. Students who have an interest in music, are able to go to the library on Monday, at lunch times, to use a device called a 'groovebox', a music instrument that allows students to practice or be creative.

And again, though it is a big term, Tension Woods College provides the resources for students to strive for success, making the ordinary extraordinary.

Anushka Kumar and Ben Lawson | Learning Leaders

National Simultaneous Storytime

National Simultaneous Storytime (NSS) is held annually by the Australian Library and Information Association (ALIA). This will be taking place in Week 4 on Wednesday 19 May at 10:30am.

Every year a picture book, written and illustrated by an Australian author and illustrator, is read simultaneously in libraries, schools, pre-schools, childcare centres, family homes, bookshops and many other places around the country. This is now in its 21st successful year.

The College has been running this event in the school since 2008. It is a colourful, vibrant and fun event that aims to promote the value of reading and literacy, using an Australian children's book that explores age-appropriate themes, and addresses key learning areas of the National Curriculum for Reception to Year 6.

This year the College is very excited that the book is going to be live streamed from space and read by NASA Astronaut Shannon Walker.

The College has asked the Junior School classes to participate in a Science experiment from the International Space Station. The classes will take the temperature outside on the morning of Wednesday 12 May and Satellite observations will be recorded on this date also. The data will be collected from the experiment and then compared by the satellite to work out an average temperature in Australia at that time.

The team over at Science Time From Space will be collecting the data collated by the astronauts on the International Space Station and provide a video of the experiment, outlining what the astronauts found, comparing it to what NSS participants found and what this all means. The information will be collected and shared, along with the astronaut experiment video.

The experiment is designed to shed some light on the important issue of climate change. The science concept shown will be that changing the surface of Earth results in changes to sun/earth/space heat balance.

Please click on the following [link](#) to access the official NSS site and the NSS email signature block and social media tiles.

Jessica Lucas | Library Assistant

Friends of Music

Friends of Music is a committee formed for anyone interested in supporting the music program at Tenison Woods College. The committee meets on the first Tuesday of each month at 7:00pm until 8:00pm in the music building at the College. The next upcoming meeting will be on Tuesday 1 June 2021.

Members of Friends of Music can take on various roles such as helping out at concerts, fundraising to sponsor students in the music program, and other small fundraising events.

Please feel free to contact Kathleen Finney (Chairperson) on kafflight@hotmail.com.au if you would like to join the team!

STEM Girls

Four Year 10 girls, Mia Pauser-Jones, Gianna Morello, Stella Fritsche and Gael Chinzungu, were recently selected to participate in the STEM Girls program on behalf of the College. STEM Girls is a University of South Australia program encouraging girls to continue the study of Science and Mathematics throughout their schooling and into university. The program consists of two inquiry days at UniSA in Mount Gambier with other local schools and culminates with a 2 day conference in Adelaide in August. The range of opportunities the girls will be exposed to include:

- enhancing knowledge and understanding of STEM concepts
- forming networks with like-minded peers
- meeting and networking with women in STEM careers
- providing career information to support a STEM career pathway.

The students enjoyed the first day held last week where they investigated mathematical modelling of population growth and then learnt how to interpret this data and apply it to controlling infectious disease and vaccinating the world. In the second workshop they learnt about the importance of blood in the human body and the genetics of blood disorder.

Bernadette Fisher | Science Teacher

Sewing Library Bags for Classmates

Last term Poplars student, Cheyanne Rainford-Schultze, took part in sewing lessons. She learnt skills such as straight sewing, threading needles, cutting fabric and ironing. She was also able to help out the Junior Poplars Class by making some much needed library bags for the students. Cheyanne really enjoyed these lessons.

Trudi Dempsey | Poplars Administration

3D-Printed Dice for Visually-Impaired Student

Year 1 student, Declan Lee, was born without vision due to a condition called 'Leber's congenital amaurosis'. Declan has a number of ESO's who assist him with his orientation and learning at school. As he can read braille, myself and his other ESO's make braille and tactile resources for him to access his learning. In March, I was fortunate to be able to travel to Adelaide for a 2-day workshop at SASVI (South Australian School for Vision-Impaired) about braille and preparing and using resources to assist students with a vision impairment. A resource displayed was dice with raised dots made on a 3D printer, which enables a visually-impaired student to identify the numbers on each side by touch. Through collaboration with Pathways Coordinator Elisa Lawrie and Design and Technology Teacher George Adamopoulos, we were able to print the same dice at our College using one of our 3D printers. George downloaded a pre-made CAD file needed to produce these special dice. As the dice are very similar to regular dice, Declan's classmates can also use them with him, promoting inclusivity. Within four days of the project being proposed I was able to hand Declan the finished product; he was thrilled about them and can't wait to use them in class with his friends.

Carolyn Jones | Education Support Officer

Olympic Cycling Team Visit

2021 is an official Olympic Year. Tenison Woods College is extremely lucky to have the Australian Olympic Cycling Team visit the College this Friday 14 May. The team are in Mount Gambier to compete in the 84th running of the 100 Mile Classic. The Year 3-6 students will be hosting the team at their assembly while the Years 7-10 HPS students will be listening to the athletes talk about their preparations for Tokyo and what it takes to be an elite athlete. The College is so lucky to have the team stop here to share their stories with us.

Tina Opperman | R-6 Sports Coordinator

Marvellous Marble Run Making

Year 7 Future Thinking students spent Term 1 investigating forces and made their own 3D printed marble runs which were tested this Term. The orange or blue 3D printed parts were combined with multi link cubes to create successful marble runs. Well done to all students on their fantastic work!

Yvette Sims | 7/8 Teaching and Learning Coordinator

SAKG Harvest

Mr Gannon's Year 6 class recently harvested their giant pumpkins which have grown from seed since last July. This was very exciting and the pumpkins will be used in kitchen lessons through the term for soup and scones. Students have also saved the seeds again for next year's crop! Sunny, one of the grounds staff, gave students a bag of corn seeds which they raised and grew. Students will trial some red popcorn and save the kernels for planting again next year also.

Jen McCourt | SAKG Co-Coordinator R-6

Cooper Fear

Maggie Collins

Cross Country

Last Friday, Tenison Woods College sent 76 students to the annual South East Cross Country Event in Naracoorte. Glorious weather greeted all who attended and the students were perfectly behaved. Tenison Woods College had some wonderful results during the day which included:

- Cooper Fear – 2nd
- Maggie Collins – 2nd
- Joe Ottoson-Crossling – 2nd
- Saskia Brogan – 4th
- Finn McEachern – 5th
- Joel Clayfield – 8th
- Tatiana Brogan – 10th

Super effort by all students!

Tina Opperman | R-6 Sports Coordinator

Joe Ottoson-Crossling

'The Club'

This term, we have introduced a before school sporting club, open to all students from Year 7-12. The Club is designed to support students who have been/are part of the High-Performance Sports Program or the Sports Academy Program but is also open to any students in Years 7-12 who are interested in sport and nutrition. The Club meets every Wednesday morning for a session which focuses on strength and conditioning, nutrition tips and support in a great positive environment. Each session is followed by a shared breakfast (in the breakfast club room).

Sessions are every Wednesday morning from 7:30AM to 8:15AM in the Barrie Holmes Stadium. There are no fees and no need to book. Come along and join in the fun!

Image: School Captain Austin Rossi is geared up and ready for a fitness session with 'The Club'.

Nathan Fleetwood | High Performance Sports Program Coach

The College's Early Learning and Community Centre recently welcomed back parents and children for weekly Toddler Time!

Toddler Time is a great chance for children to interact and play with others, make new friends and have some fun! Sessions are held every Wednesday during the Term. Visit the College website or contact the College for more details.

Prime Minister's Online Spelling Bee

Students in Year 3-6 all over Australia recently participated in the Prime Minister's online Spelling Bee, with 33 students from Tenison Woods College involved. Each student participated in a series of rounds. Firstly, the school competition round and then the State and Territory final. Students had to answer 30 randomly served spelling words within a 25 second time frame. To move onto the next round students were ranked on accuracy and time.

The top 100 ranked students from the school round, which included 24 of our students, made it to the State and Territory round and the top 3 ranked from the State and Territory final were eligible for the National Final. Unfortunately, no students from our College progressed to this final round.

The competition was a game of skill; chance played no part in determining the winners.

I would like to congratulate all the students for having a go at this competition. Their enthusiasm and determination to give it a good go was outstanding! I look forward to running the competition again next year.

Students have all received certificates for their participation in the rounds they competed in.

The students that took part were:

Kade Parker, Dane O'Brien, Eli Pilven, Miles Kroon, Caitlin Barry, Sophie Halloran, Marcon Gemino, Muhammad Usman, Sophia McCullough, Hudson Gray, Louis Prospero-Porta, Charlie Little, Shubhan Vijayakumar, Andy Guan, Jack Koopman, Stella Jones, Archie Marlow, Filumena Ochudzawa, Bailey, Cooper Fear, Isabelle Neumann, Kareena Ghosh, Zoe Guthridge, Laura, Riley Chapman, Digby Stephens, Max Yeates, Samuel Swiggs, Sienna Hughes, Imogen Lock, Arshia Gulati, Bryn Rickard and Ava Prospero-Porta.

Elisa Lawrie | EY-6 Pathways Coordinator

Recycled Plastic Art Mosaic

The Project Recology shed has put leftover project resources to great use, as re-claimed plastic from students' projects have been re-melted and pressed into artistic tiles, combined together to make a unique mosaic outside the Tenison Woods College Conference Room.

A great initiative to recycle parts already recycled; nothing left to waste.

Well done to students Alain Alpha and John Wimshurst (absent from picture) on this great project!

Callum Unger | Sustainability and Recology Education Support Officer

SAKG Competition Butterfly Habitats

Student, Xavier Mugavin entered a colouring competition for SAKG last term to celebrate Butterfly Habitats which formed the focus around learning for Reception classes. Students planted butterfly gardens and made butterfly sunbeds in their garden lessons and then designed butterfly habitats with fresh herbs and sandwich items to eat in their kitchen lessons. Congratulations also to Neve Dycer in Mr Fitzpatrick's Year 6 class who won the prize pack for older students with her beautiful entry.

Students from Maria Jeffrey's class also made edible butterfly habitats!

Jen Mc Court | SAKG Co-Coordinator R-6

Recycled Bench Student Project

Year 7 student, Charlie, has made great use of our Project Recology shed and resources to create a stunning bench top comprised of recycled plastic!

Plastic was pressed and moulded into panels to cover the original steel frame, to create a unique piece of artwork that works as a functional bench.

This is the first prototype of a recycled bench. We hope to replace many existing benches around the College.

Callum Unger | Sustainability and Recology Education Support Officer

Do It For Dolly Day

At the beginning of 2018, the country was stunned by the death of 14-year-old Dolly Everett, a victim of relentless bullying including cyber-bullying.

Dolly left behind her parents Kate and Tick Everett, and sister Meg, who established Dolly's Dream to act as a voice for those who cannot speak for themselves, create a kinder world and work to prevent other precious lives being lost to bullying.

Do It For Dolly Day is about bringing the community together, spreading kindness and uniting in taking a stand against bullying.

Do It For Dolly Day is held on Friday 14 May 2021 and we are asking Middle and Senior Students to show support of the day by wearing a light blue ribbon and being kind (every day!).

Student Leaders will hand out ribbons on Friday morning

This year, Do It For Dolly and help create a safe and kinder world for Australia's kids and communities. #DoltForDollyDay #bekind

This awareness campaign was prompted from a 9SHINE class activity.

To find out more please follow the [link](#).

Jaimee Smith | Year 9 Student

QKR! App Important Reminders

When using the QKR! App for canteen orders, please be reminded of the following points. The Canteen have noticed an increase of errors, so please take care when ordering. User accuracy is extremely important when using the QKR! App. Please be vigilant with student name, and class. If you have made a mistake, you can click profile on the QKR home page, and edit the student's profile.

- Only 1 Order Per Child (please don't order for siblings using 1 child's name, each child needs their own unique profile)
- If child goes home sick, please let the Front Office know that they had a canteen order for that day (or phone the canteen directly on 8724 4607 to notify). Any children who are sick, without the canteen being notified prior to recess time will forfeit their order.
- Once orders are placed on the App, no changes can be made to the order.

Leanne Sandow | Canteen Manager

Mobile Muster Drive

Thanks to the suggestions of staff, the College is running a Mobile Muster drive across the College community. Drop off boxes are now located in the Front Office, PRC Office and in the Staffroom. This is an opportunity to clean out old drawers of knackered or outdated phones, chargers and accompanying accessories. The Mobile Muster will run for a month at the College and will provide the opportunity for 95% of the components of old phones to be recycled to other items. Mobile Muster has no want to look through old cat photos and encourages people to clear phone content prior to drop off.

Links to what is happening in classrooms can be found through Mobile Muster's resources page which can be accessed [here](#). Media classes are developing some interesting mobile phone recycling videos, vying for a handful of exciting prizes.

LAUDATO SI' WEEK 2021

MAY 16-25

LET YOUR
light
SHINE

Laudato Si' Week 2021, to be held May 16-25, will be the crowning event of the Special Laudato Si' Anniversary Year, and a celebration of the great progress the whole Church and the College especially has made on its journey to ecological conversion.

MON

HEALTHY NUDE FOOD PARENT INFORMATION NIGHT

6:00pm in the Lecture Theatre. Join our College's Nude Food revolution and learn how your family can reduce your waste. Hear from acclaimed nutritionist Lynley Seaman about how you can fuel your family with healthy food. Light nibbles provided.

TUE

JUNIOR SCHOOL LUNCHTIME CLEANUP

Led by Middle School Enviro's Colby Ind and Alexei Georgiou. Participants will earn a ticket to a lunch time screening of The Lorax on Thursday

WED

LUNCHTIME WORLD RECORD LIDS SORTING

We want as many students as possible to help us set a World Record for the most lids sorted in a half hour window. Get to the Project Recology Shed at lunch to be a part of history

THU

LAUDATO SI' MOVIE THE LORAX

Screening in the Lecture Theatre. Invited students must show their ticket to enter

FRI

LUNCHTIME NATURE WALK THROUGH MARIST PARK

Join Mr Linnell and student leaders on a walk through Marist Park walking track. Be prepared to leave from the grassed area in front of the Front Office at 1:25pm. Students and Teachers welcome

SAT

OPEN MORNING @ PROJECT RECOLOGY SHED

9:00am-11:00am. Families invited to experience our Project Recology space in action. Bring your recyclable plastic items, help us sort some material, assist in making some products, talk all things recycling.

For further details, please contact Tom Linnell linnt@tenison.catholic.edu.au
